

Studies about smiling have produced some surprising results. Did you know your smile can be a predictor of how long you'll live? Smiling has a measurable effect on your overall well-being—so share those smiles!

Our mission is to contribute to children's well-being by improving their oral health. Our work is extremely rewarding, but also challenging. PRASAD CDHP provides services in Sullivan County, NY, which for the past several years has ranked as one of the lowest of all New York State counties in both health factors and health outcomes.

In 2013, PRASAD CDHP provided dental health education to 4,211 children, and the dental clinic performed 4,910 dental procedures. **We appreciate your continued support, which makes it possible for us to bring happy, healthy smiles to children.**

### THANK YOU!

Main Beach Surf + Sport has partnered with PRASAD CDHP for more than

six years to benefit children in need of dental care. Owner Lars Svanberg has taken the lead on this fundraiser to successfully raise \$9,700, which will provide dental health education and dental hygiene supplies for 4,000 children. The campaign was coordinated by Goodcircle.

PRASAD CDHP was honored to receive the 2014 Give Kids a Smile Award, given by the New York State Dental Foundation in recognition of demonstrated excellence in caring for the oral health care needs of underserved and at-risk children. Laura Leon, Executive Director of NYSDF, commented, "PRASAD CDHP is receiving the award for the third time, which is a testament to the good work that PRASAD is doing to help children and mothers receive dental care despite the obstacles of the rural community."

*From left to right: Dr. Cecilia Escarra, Program Administrator of PRASAD CDHP, Ron Brent, President of the Board, PRASAD CDHP, and Laura Leon, Executive Director of the New York State Dental Foundation.*

PRASAD CDHP continues working to increase the number of children with dental homes, decrease the prevalence of dental disease, and decrease the number of children with untreated tooth decay.

**Join our efforts to bring  
happy, healthy smiles!**

## ABOUT PRASAD CDHP

PRASAD Children's Dental Health Program is an initiative of The PRASAD Project. The PRASAD Project is a philanthropic expression of the SYDA Foundation—the organization that protects, preserves and facilitates the dissemination of the Siddha Yoga philosophy and culture.

The mission of PRASAD Children's Dental Health Program, a not-for-profit organization, is to improve the dental health of children by providing comprehensive, high quality dental services through education, prevention, detection and treatment. Since 1998, PRASAD CDHP has provided dental care and dental health education to children aged 6 months through 18 years in Sullivan and parts of Ulster counties in New York.
